

# Controlling a vehicle! Part 1

## Moving the Vehicle

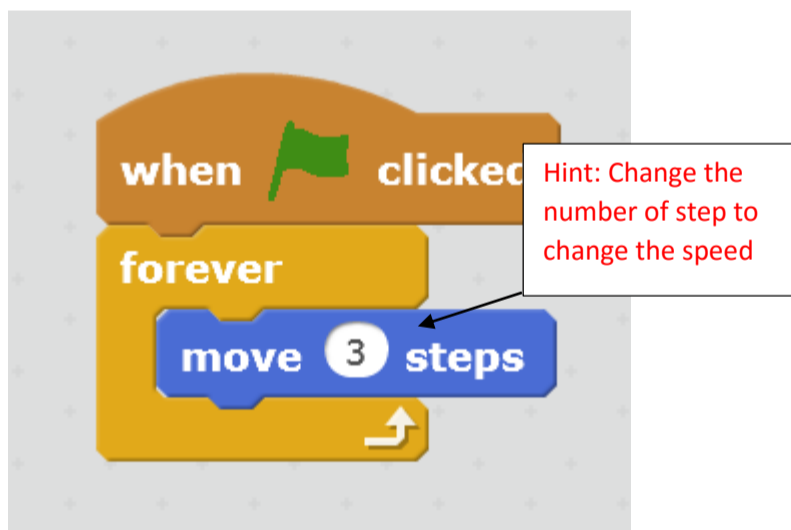

1.) Delete the Cat and put a vehicle in

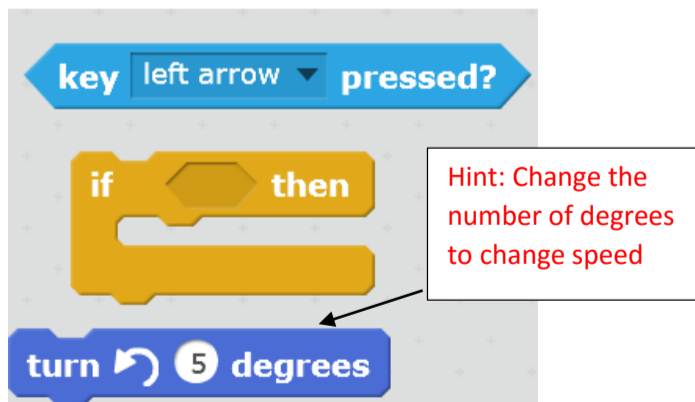

2.) Ensure that the car is centered by clicking the Centre button under costumes

3.) Use the following code to get the car moving

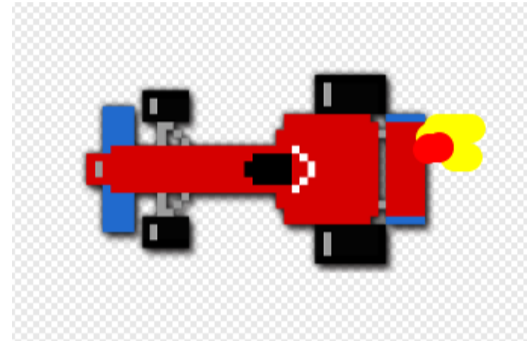

4.) Figure out where to put this code I order to make it turn Left

5.) Try and figure out how to make the car turn Right.

## Breaking and Boosting

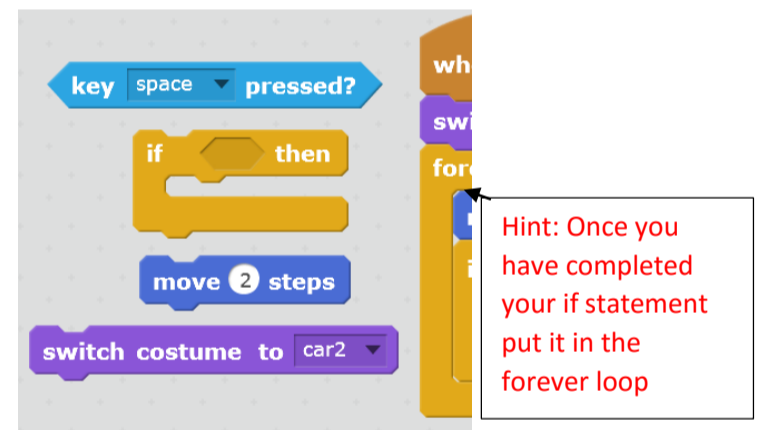

1.) Ensure that you have a different costume for boosting.

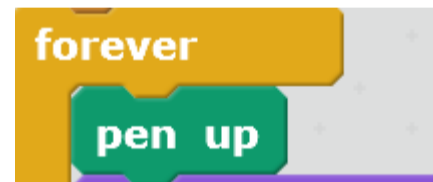

2.) To ensure that the car stays in its normal form add this code in.

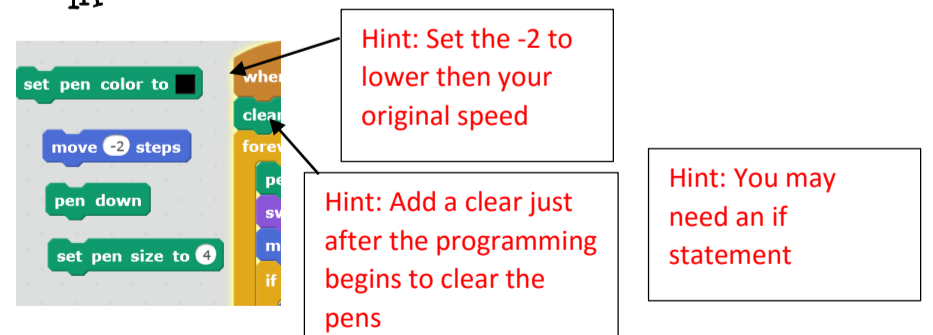

3.) Add this code in to figure out how to boost

4.) Add this into the start of the code

5.) Try to add breaks to the car by using similar code to above but add these two in

6.) as an extra for experts try and figure out where to put sound
